Food

Page 16

Barista quality coffee for every workplace.

Espresso, latte macchiato or a creamy cappuccino? Americano black or with oat milk? Our coffee concepts offer a wide selection of coffee and hot drinks. Our coffee blends have been especially tailored to the needs and preferences of the Swiss people.

Award-winning coffee

100% organic & fairtrade beans

Roasted in Switzerland

Specific roasts developed for the Swiss tastes

+20 different drinks and vegan milk alternatives

Leading Swiss coffee technology

Boostbar Coffee: Barista quality with 100% enjoyment

Barista at the workplace

Our coffee roasts are optimized for over 20 different coffee drinks. From the classic espresso to the creamy cappuccino, your employees will enjoy coffee just like from a barista.

Coffee connects...

Breaks are too short to complain about bad coffee. That's why we bring truly great coffee directly to your meeting areas. With each good cup of coffee, you ensure that your employees look forward to coming to the office and find new inspiration.

More than just coffee

Whether classic dairy milk or plant-based alternatives, we offer a variety that delights. And our selection goes even further: With a range of teas, hot chocolate, and even soups, we bring variety to every break.

Sustainable farming

Our beans come from organic farming and fairtrade. For a coffee experience that not only tastes good but also leaves you with a good feeling.

The blend makes the difference: beans, roasting, extraction

Under the leadership of coffee master Evelyn Rosa, we have developed three Boostbar coffee blends specifically for the Swiss market. Our coffee blends are perfect for preparing a variety of coffee drinks with fully automated coffee machines.

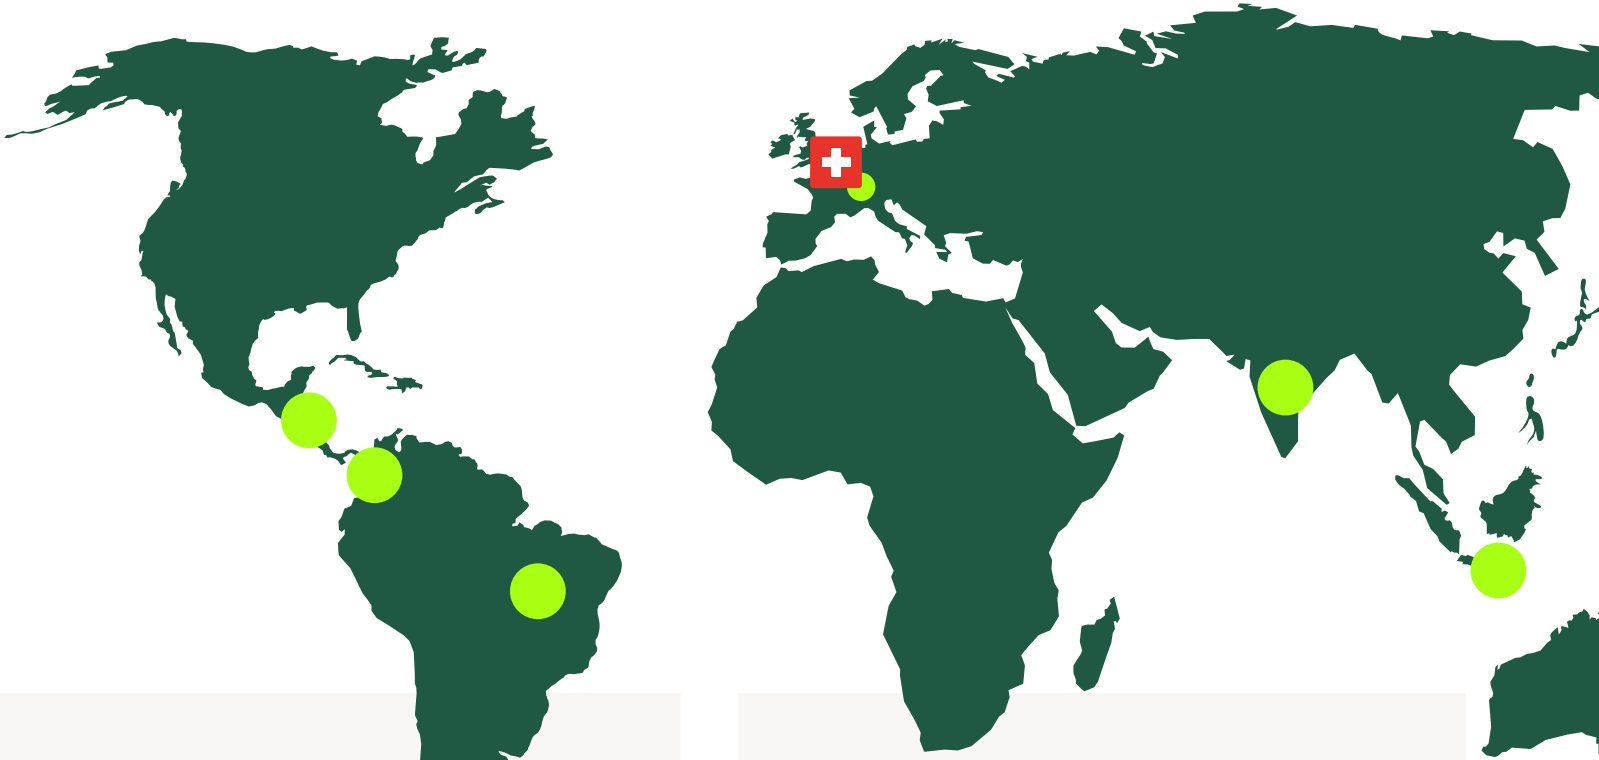

The right beans
We proudly source 100% organic and fairtrade beans. Sustainability is not a trend for us, but a fundamental requirement.

The perfect blend
With care, we balance the strength, acidity, and flavor profiles of our coffee varieties.

The ideal roasting level
Whether Italian espresso or Swiss-German "Café Crème", we always hit the right note to make every cup a pleasure.

Our blends

Stüssi Blend

Boostbar Coffee
From 20 people

The perfect solution to give your employees their daily boost!

Roaster's Edition
From 50 people

It's more than just a cup of coffee — it's a statement.

Designed for companies that keep the well-being of their employees at the forefront of their decisions.

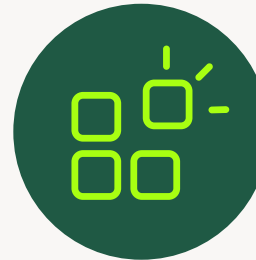

Catering designed with your needs in mind

We offer you the most diverse workplace catering solution in Switzerland. Our product range includes a wide selection of drinks, snacks, baked goods, ice creams and fresh and frozen meals.

Carefully compiled by nutrition experts, our range has something to suit every taste.

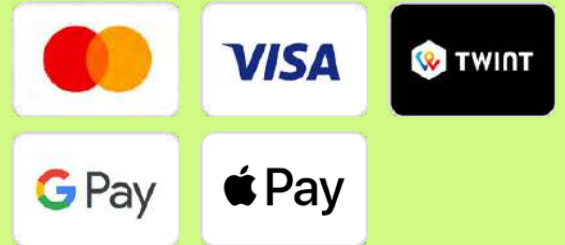

Most attractive value for money on the Swiss market

Modular concept — tailored flexibly to your needs

The most sustainable vending solution in the industry. Supported by the government.

Payment? Simple and flexible.
Custom selection of payment options, including employee badge integration. Tailored subsidies available.

Set the Table! What's on offer at Boostbar?

From popular snacks to healthy alternatives and meals featuring local and international specialties — our range invites you on a culinary journey. Whether vegan, gluten-free, protein-packed, or simply delicious: there's something for everyone here.

Breakfast and Desserts

Fresh pastries with coffee, buttery pretzels for a savory treat, or an ice cream to keep a cool head — we have everything you need for a complete refreshment experience.

Snacks and drinks for a quick break

We rely on trusted classics like Bischofberger Biberli and innovative Swiss snack novelties — our selection leaves no wishes unfulfilled. For a refreshing boost in between, we offer a variety of beverages, from energy drinks to Focus Water.

A diverse menu

Every week, we serve 15 different menus, always handmade, without artificial additives, and with a zero-waste guarantee. Additional options to round out the selection include fresh sandwiches, salads, and bircher muesli from local bakeries.

Boostbar refreshment concepts

Choose a concept tailored to your company size and needs:

A fridge, a bistro, or a market with customizable elements. Our Boostbar set-up is fully digital, enabling optimized restocking.

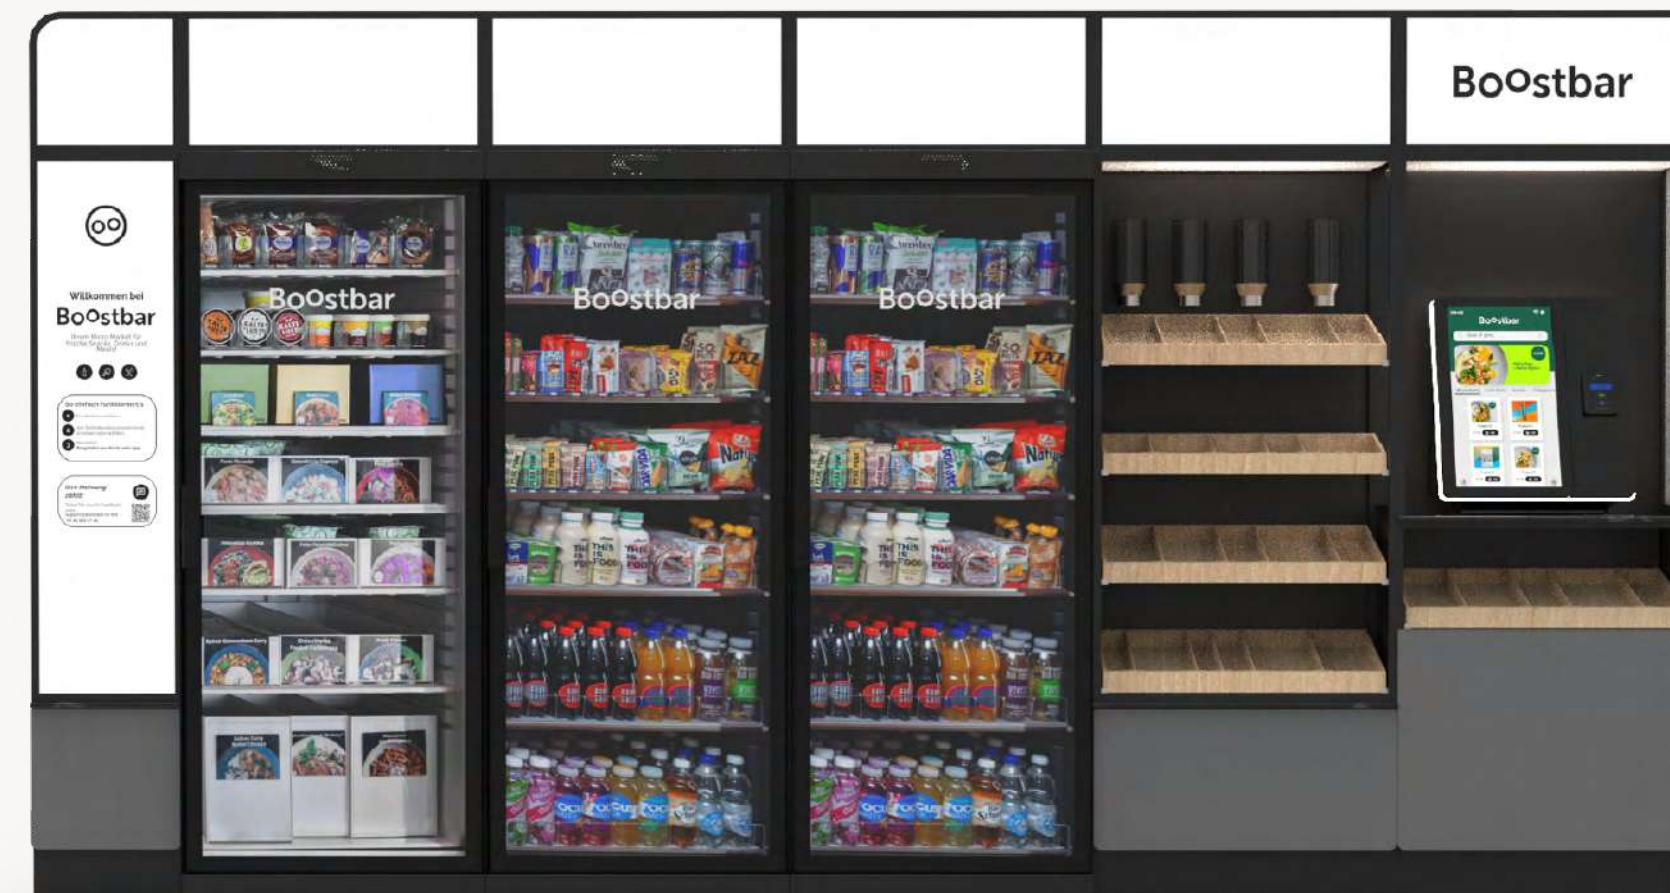

Boostbar Fridge
For 50+ people
From CHF 390/month

The Smart Fridge provides refreshing beverages and snacks, with the option to complement the assortment with fresh and local products like bircher muesli or sandwiches. This concept is ideal for equipping break rooms with a simple refreshment solution.

Boostbar Bistro
For 80+ people
From CHF 1290/month

The Bistro concept offers a comprehensive selection of products for every type of break, all in less than 2 square meters. This is an optimal solution for diverse refreshment options, featuring daily >15 different dishes, baked goods, and ice cream in a compact space.

Boostbar Market
For 150+ people
From CHF 1990/month

The Boostbar Market is a premium refreshment offering with a modular setup that covers all needs, from morning breaks to midnight snacks. You can customise and personalise your own market with various modules.

Flash-frozen meals: Healthy, sustainable, and eco-friendly

The Boostbar refreshment concept with flash-frozen meals is unique in the Swiss market.

What's on the menu?

We offer 15 different meals that are rotated every two weeks. This ensures your lunch is a culinary journey: From Swiss classics to Mediterranean and Asian cuisine. Vegetarian and vegan dishes round out the selection.

Is microwave heating harmful?

Quite the opposite! Microwaving is a gentle (and advantageous) method of preparation. While all cooking methods result in some nutrient loss, the short preparation time in the microwave helps retain many nutrients.

Are flash-frozen meals healthy?

Yes! All our meals are free from artificial additives. Thanks to the freezing process, valuable nutrients like vitamins and minerals are preserved, which are often lost during other preservation methods.

How are the meals prepared?

Preparation is simple! Place the meal in the microwave and heat it for the specified cooking time, which takes between 4-10 minutes, depending on the dish. Baked goods only require about 20 seconds of heating after unwrapping. Easy, quick, and delicious!

Why are flash-frozen meals sustainable?

This type of meal solution is by far the most sustainable for an unmanned refreshment concept.

Reduced Food Waste: With a shelf life extended through freezing, food waste is kept to <2%.

Lower Transport Costs: Fewer trips are needed for servicing and restocking, minimizing transportation emissions and costs.

Our Mission: Zero food waste & CO₂ reduction

With our innovative refreshment concepts, we offer ultra-local and fresh meals alongside frozen options. This sets new standards for sustainability in the vending industry.

A study by the Federal Office for the Environment (FOEN) found that our Boostbar Freezer concept reduces CO₂ emissions by 90% compared to fresh vending offerings.

Since 2023, we have been supported by the Federal Technology Fund for our innovative business model.

Taking responsibility with every step

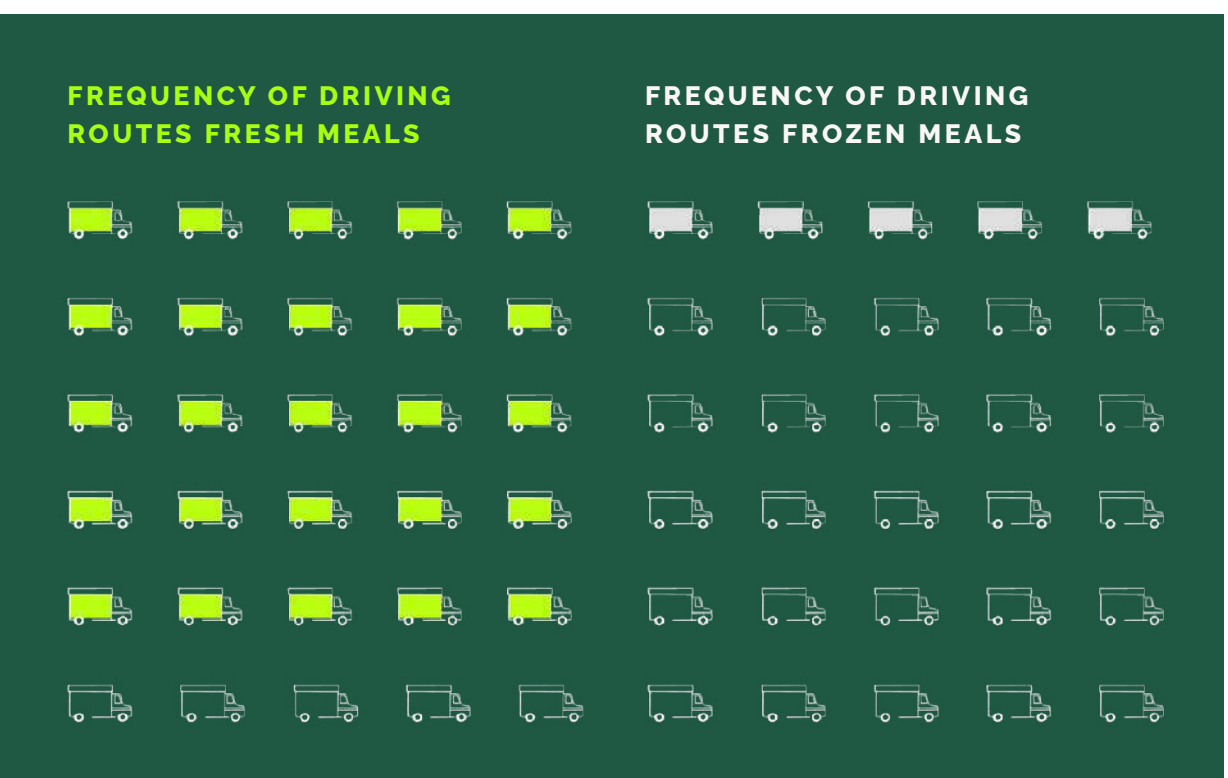

Food Waste < 2 %

Food waste from frozen meals is less than 2%. In comparison, fresh food waste averages 30%. Thanks to our flash-frozen meals, 750 kg of CO₂ emissions per device are saved annually.

Merchandising

Merchandising frozen dishes requires up to 5x fewer trips and on-site visits compared to fresh meals. This reduces CO₂ emissions by 80%, saving 800 kg of CO₂ per year per device.

Compostable packaging

Our frozen dishes use BIOPAP packaging made entirely from paper, which is 100% compostable.

Serving you across Switzerland

With Boostbar, you can enjoy your break worry-free, as we handle the installation, restocking, and maintenance of the vending machines and support you with all types of inquiries

We provide comprehensive service for all our coffee and refreshment concepts.

We take care of installation and maintenance

We manage merchandising and restocking of machines

Our service team supports you via phone or email

Swiss Economic Award 2023

In 2023, we won the **Swiss Economic Award** for our fully digitalized refreshment vending machines.
